Take part in our short survey to give us your opinion on Springer Nature and its f

SpringerOpen books

The growing demand for open access publishing across all disciplines has led Springer to expand our or program to fully open access books. As a further addition to our already established SpringerOpen journ we now offer authors in a wide range of areas within science, technology and medicine (STM) and within humanities and social sciences the option to publish open access books.

SpringerOpen publishes a wide selection of open access books across various disciplines. All SpringerC are freely available online at SpringerLink and listed in the Directory of Open Access Books (DOAB). An of SpringerOpen books may be downloaded on Springer's MARC records website. You can also browse comprehensive list of open access books available on our website <u>here</u>.
